

#2 - Round Robin

Try this idea and watch the smiles and joy radiate from your guys!

The Round Robin is taking all members of the chapter and lining them up by voice part. (Tenors behind tenors, Leads behind leads and so forth) Pick a chorus repertoire song or one of the pole cats that everyone knows (key is everyone must know and feel comfortable with the song) The first four guys in line start singing as a quartet at some point the facilitator (your own Fun Agent) yells "Switch" back to the end of the line goes the first guys with the next guys in line picking up the song without missing a beat. This is a great way to introduce quartet singing and various combinations of voices. You'll be surprised, but four guys may just start quartetting because of this. Not to mention everyone has a ball.
